I. GENERAL INFORMATION

Papers submitted for publication in Revista de Economía y Estadística must be written in Spanish or English and should not simultaneously be submitted for publication in other journals. Received papers will be considered by the Editorial Board. Articles will be subject to the double blind procedure (anonymous authors and referees).

Original submissions should be submitted electronically (preferably in Word and Excel format) and sent to the Journal's Editors via the Journal's web portal: <https://revistas.unc.edu.ar/index.php/REyE/about/submissions>. It is the authors' responsibility to ensure that the file is completely legible in any personal computer (not only in the one in which the article was written). Not legible files will not be accepted.

The Editors will not take any responsibility for any damage or loss of submitted articles. On papers acceptance, authors will be asked to transfer their property rights to the journal in order that the amplest dissemination of information can be guaranteed.

Title page. The title page will include:

The **article title**, which should be short, self-explaining and bearing the paper's essence, in Spanish and in English.

The authors' name and permanent affiliations, followed by their current postal address, e-mail address and telephone or fax number.

The title page will also include single paragraph abstracts, in Spanish and in English, of not more than 200 words each and a list of two to five keywords in Spanish and in English. The JEL classification should be included.

Footnotes. Footnotes will be kept at a minimum and numbered consecutively and designated by superscripts in the text. All footnotes should be typed 1.5 lines spaced and they will not include formula.

References. All bibliographical references cited in the text must be presented alphabetically and written according to the APA style (Publication Manual of the American Psychological Association) in its latest version available. Only the cited works should appear in the References section and vice versa. References should not include papers not yet accepted for publication.

Formula. They should be numbered consecutively throughout the text [e.g. (1), (2), etc.] on the right of the page. It is recommended, in case of abbreviated formula display, to separately submit their complete derivation (which will be not published). They must be done with the Word Equation Editor, always inserted in the document as an editable object.

Tables and Figures. Tables as well as figures should be identified with Arabic numbers and will have a legend and the source (whenever it

applies). Figures carrying photographs will be presented in brilliant, good quality white and black copies.

Organizations and Institutions. Organizations and Institutions quoted or mentioned in the paper will be indicated with their complete denomination and the corresponding initials between brackets.

Annex. Authors are advised to send, enclosed to the paper, the file with the database used for estimations and the construction of tables and graphics.
