- **7th International Symposium of Clinical and Applied Anatomy:** Ohrid, Macedonia, September 17 to 20, 2015 (Find more information in the pages below).
- **IV Argentine Congress of Clinical Anatomy:** Buenos Aires, Argentina, September 23 to 26, 2015.

FIRST ANNOUNCEMENT OF THE 7TH INTERNATIONAL SYMPOSIUM OF CLINICAL AND APPLIED ANATOMY

17. – 20. September, 2015

OHRID, Republic of Macedonia

Dear colleagues, participants, friends and guests,

We are happy to announce that the **7th International Symposium of Clinical and Applied Anatomy (ISCAA)** will be held in Ohrid from 17th to 20th September 2015. On behalf of the Organizing Committee, Institute of Anatomy at the Medical Faculty at the University "Ss Cyril and Methodius" in Skopje and Macedonian Association of Anatomy and Morphology (MAAM) , it is our great pleasure to invite you to participate on the 7th ISCAA.

It will certainly be a great cultural and scientific event and a further opportunity to discuss issues of mutual interest with many colleagues from across World. The Symposium intends to comprehensively cover all aspects of modern medicine and to favor meetings of anatomists with different backgrounds and orientations.

The city of Ohrid and Ohrid Lake is a major tourist resort in Republic of Macedonia. The ancient Lichnidos dates back in the third century B.C. Ohrid as a cradle of Christianity has 365 churches, one of each day of the year and has been called Slavic Jerusalem. In the ninth century, Clement and Naum , the disciples of the first Slav educators Cyril and Methodius, founded the first Slavic University in Ohrid. The city of Ohrid and its beautiful Lake are under the protection of the UNESCO.

We have tried to provide learning opportunities from experts, but also we invited many colleagues around the world to actively participate sharing their clinical experience and research.

We wish you a fruitful work and pleasant stay in Ohrid.

We are looking forward seeing you in Ohrid.

Prof. Dobrila Tosovska-Lazarova, MD, Ph.D.

President of the Congress
